

The comic strip that loves all bugs, except LITTER BUGS.

Environmental Ant

One fine day, Environmental Ant was walking and whistling along when he heard a faint cry for help.

In front of his eyes he saw a flower trying to bud out of the ground.

It was tragically trapped under a bag of crunchy grodies.

Environmental Ant immediately set to work trying to rescue the young flower.

After much pulling and pushing he was successful!

Don't be a litter bug. Litter disturbs and destroys nature.
